Dear Sir,

The Youth development Fund would like to acknowledge your contribution/support, which enabled YDF to carry on the sponsor a monk project to benefit the poor monks of our nation.

The Youth Development Fund initiated the project 'Sponsor a Monk' and made a great difference in the lives of the poor monks and improved their day to day health and sanitation a lot. With your valuable support the project was quite successful and we are very grateful for the continued support rendered by you. Without your support the objective of our project would have been defeated. For your information, the number of Tozey is increasing day by day and on the other hand the institute could not turn away those brought to the institute for it would mean going against the Buddhist philosophy of 'compassion for all sentient beings'. We have also requested the Head of the institute to find out if there are Tozeys who want to join school but ^{one} not turn out to leave the institute.

Once again thank you very much for your continued support. Attached, a copy of annual report and an acknowledgement letter from your beneficiaries.

Yours sincerely

Jigme Thinley
Program Officer.
